WARNING

Serious or fatal crushing injuries can occur from furniture tip-over. To help prevent tip-over, install tip restraints per instructions.

Use of tip-over restraints may only reduce, but not eliminate, the risk of tip-over.

For safe mounting, it is essential to use wall anchors appropriate to your wall type (i.e. plaster, drywall, concrete, etc).

Mount to wood studs whenever possible. If you are unsure about your wall type or what mounting method you should use, consult a qualified professional or your local hardware store.

SAFETY RECOMMENDATIONS

Place heaviest items in the lowest compartments or drawers.

Unless specifically designed for such, do not set TVs or other heavy objects on top of this product.

Never allow children to climb or hang on drawers, doors or shelves.

Never open more than one drawer at a time.

ANTI-TIP KIT INSTALLATION

If unable to locate a stud, use supplied anchors. Do not install directly into drywall.
